

## TrueGreen™ Laundry Washing Ball and Dryer Balls

### Washing Balls

### Dryer Balls

**Save up to \$400 a year on Detergents and Bleaches**

**With the added \$\$\$ Saved on Water Consumption and Electricity**

**You truly are doing your part to help save the earth!**

### DRYER BALL BENEFITS

True Green Laundry Dryer Balls are 30% larger than other dryer balls advertised and are scientifically designed to allow more air penetration when drying clothes.

Our dryer balls lift and separate laundry so that the air can circulate more freely.

### LAUNDRY BALL BENEFITS

What makes our scientifically designed Green Laundry Washing Balls so powerful is also what makes them so unique.

They are the only laundry washing ball in the world capturing the effectiveness of 4 specialized ceramic beads which eliminate chlorine from the water supply, kills germs, mildew and odor (especially effective removing that smell from front loaders), raises PH and includes negative ion/ far Infrared beads coupled with incredibly strong magnets!

This powerful combination creates a cleaning experience as good as or better than any detergent on the market today without any chemicals or animal fats being introduced into our water supply!

The TrueGreen™ Laundry Washing Ball is an Extremely Earth Friendly and People Friendly Product that DOES NOT contain harmful synthetic detergents, perfumes, dyes or oils eliminating the need for the rinse cycle which saves electricity and water.

The Laundry Washing Ball cleans your clothes without bleach or detergents in cold water saving electricity. You will be amazed at how bright your whites will be.

The Laundry Washing Ball is cheaper than detergents and bleach and much more convenient.

- Compatible with front loader and HE washing machines.
- Reduces environmental pollution.
- Hypo-allergenic with no remaining chemical detergent residue in clothes. It's a must for those with sensitive skin.
- Contains an Anti-bacterial agent which eliminates mold, pathogenic organisms, and unpleasant odors.
- Protects the discoloration and oxidation of fabrics caused by chloride content in the city water and helps to maintain the elasticity of fabric.
- Soap & detergent free leaving no soapy film or residue on clothes.
- Reduces Scale, Rust and Lime buildup in the washing machine and pipes.
- Easy, Effective, Economical & Portable. Bring it on extended vacations.

## Ingredients

**Powerful magnets** - activates water clusters, softens the water and minimizes the size of the water molecules which helps reduce scale and rust build-up in washing machine and pipes.

**Far infrared and negative Ions Beads** - break water molecules hydrogen combinations into small clusters and forces the small water cluster being activated to increase its molecular motion and penetration force ensuring a powerful wash. In addition, radiating negative ions weaken the surface and inter-fabric adhesion allowing dirt to be removed without using harmful detergents.

**Antibiotic Beads** - sterilizes, eliminates mold and pathogenic organisms in the washing machine.

**Alkali Beads** - Keeps the PH spectrum at the level of ordinary chemical detergents.

**Chlorine Exclusion Beads** - eliminates the chloride compound in water.
